**Notes:**

Year 2004 data are preliminary and incomplete estimates.  
Data are considered confidential when fewer than four people participated in a fishery.  
Selected data fields are represented by "0" when no activity has occurred in a fishery (i.e., closure).  
Gross earnings are estimated using an average annual ex-vessel price per area, species and gear type.  
These data are aggregated by type of permit fished, and thus contain both targeted and incidentally landed species.  
Data includes only commercial catch landed on valid permits. Data associated with test fishing, illegal landings, derbies, hatchery cost recovery fishing, educational permits or unmatchable permits are excluded.  
Percentages of permits not fished are calculated within each resident category.  
During the 2002, 2003 and 2004 fishing seasons, both a 'cooperative' and an 'open' fishery occurred in Chignik salmon seine fishery (S 01L).
